

Congratulations Team Members!! Safety Dept

We are pleased to announce that our facility has been selected as a recipient of the 2012 Brunswick Chairman's Safety Award. We will be planning a celebration event at the facility which will include a visit by our Chairman – information will be forthcoming when date is confirmed.

We will be getting a team together to pick a Charity that we can Donate \$10,000 dollars to. Just think of the organizations that we have helped in Flagler County over the years. Now, we have another opportunity to give another \$10,000 to a worthy organization.

I would like to ask each team member to think of local organizations in Flagler County that they feel is worthy of this great award of \$10,000. There is a box on the file cabinet for you to drop off your ideas into. The team will review and select one organization to receive the money.

Please note that there are very strict guide lines that we have to follow when we select an organization. We cannot split the money and along with numerous other rules, the charity has to be in Flagler County, and meet the criteria for us to give it to them (Non-Profit). Once we decide which organization that we would like to donate to, Corporate then has to verify the organization is legitimate and approve, so, we need to get moving on this one soon.

2013 EAC Events

March: 3/23/13 Kickball & 3/28/13 Annual Golf (Sykes Creek)

April: 4/13/13 Corn Hole, 4/20/13: Annual Fishing Tournament (Sykes Creek), 4/27/13 Volleyball / Horseshoes

October: 10/5/13 Basketball

November: 11/16/13 Bicycle Poker Run

December 12/7/13 Winter Banquet

Plant Hand Held Tools

By Kevin Kelley

If any hand tools are needed for up in count or as a replacement, you must first fill out a tool requisition form located on the Info center # F-M-TRF-1. Fill the form out completely and return to Kevin Kelley or Dave Butler. Maintenance will process your order and assign a tool number for the individual that the tool was ordered for and then load it in the tool data base. Maintenance will contact you once the tool arrives, so you can distribute. **NO ONE IS TO BUY ANY TOOLS BY THEMSELVES BECAUSE THEY MUST GO INTO THE TOOL DATA BASE, FILL OUT THE FORMS AND GIVE TO KEVIN KELLEY OR DAVE BUTLER THANKS !!!!!!!!!!!!!!!**

Our Space

Exercise or Fun

By **Tricia Giordano**

The new craze in working out is a mixture of mud, foam, water, sweat, blood and tears. Last year Leo Salgado Rosado did the Spartan Race and told his story in our newsletter. Now only a few months later, a few more employees have joined the fun. Mike Regan from our Engineering Department decided to take the plunge and drive to Miami for the Spartan Race on February 24, 2013. If that wasn't enough he decided he wanted more, so he drove to GA on March 9, 2013. Not only did Mike race, but his 7 year old son, Aiden, raced also.

On March 2, 2013 Robby DeVore from our Fabrication building took the drive to Miami with his team to try the Tough Mudder's Race. The Tough Mudder was 12 miles and 25 obstacles and Robby finished in 2hours 57minutes. Even though the race was in Miami, Robby had to deal with the 40 degrees weather and winds. Sure enough, he played in the mud and is hooked. Robby is ready for the next race.

On March 2, 2013 Dave Tilton from our Electrical department and myself (Tricia Giordano) Pace Coordinator started small with a Foam and Mud run with 20 obstacles in Jacksonville. The temperatures were not in our favor, but we decided to do it anyway. Our team finished, but due to the cold weather mixed with the wet run, we were not able to meet up with a few other racers we knew. Some other race participants were: Jennifer Popowich (Rob Popowich's wife), Megan Terpenney (Robby Blumline's fiance') and Maggie Finley (Aaron Rounsavall's fiancé). Hopefully the next race will have the warm Florida weather we know and love.

On May 11, 2013 at Strickland's Farm they are having the Florida Rock Race. Good Luck to Leo Salgado Rosado and Ryan Powell who will be participating.

Don't forget kickball is Saturday, March 23, 2013 at 10am at Wadsworth Park. We will be on the ball field in the back. Come cheer your coworkers on or join in the fun.

We have a holiday on Thursday, March 28, 2013 in observance of Good Friday.

DATES TO REMEMBER:

Memorial Day

Monday, May 27th

Fourth of July

Off- Thursday, July 4, 2013 (four day work week)

The Health Risk Assessment By Sisouphanh Sihachak

Many of us took part in the recent health assessment. As a result, most participants were shocked at their results. Most of us are not as healthy as we would like to believe. With a full work schedule and a busy home life, it is very difficult for just about everyone to find time for the gym. With that being said, Here are a few quick tips for improving your health.

* Limit alcohol and caffeine consumption. Try drinking more water!! This is probably the best and easiest tip, however it seems to be the one most people struggle with.

- De-stress Make time to de-stress each day. Even if it's just a walk on your lunch break or a few minutes alone in silence, it will help you focus for the rest of the day. Try to make a decent chunk of time for yourself at least

once a week - do whatever relaxes you, whether that's playing sports, watching TV or cooking.

- Exercise- everyone can find at least 10-15 minutes to exercise each day. These exercises can be as simple as jumping jacks, push ups or sit ups.

These are just a few simple ways to improve your overall health. These tips are simple, however, they can make a big difference in your everyday life.

Model Release:

540DA - April

510DA - May

510DB - Q4 2013

580DA - Q4 2013

640DA - Q2 2014

Tom Oetting with his very first "Hole In One".

Relay for Life

By Chuck Johnson

EAC will be involved in Flagler County's Relay for Life (American Cancer Society) on Saturday, May 11, 2013- Sunday, May 12, 2013 at the Palm Coast Town Center. The idea behind Relay for Life is to keep a member of your team on the track for 18 hours straight. They feel that Cancer does not stop for the individuals who are fighting cancer, so the Relay will not rest until it ends. If you are interested in joining our team, please let an EAC member or Chuck know and give us a time frame you would be available to be on the track. This year each team can sell the Luminaria bags (pictured above) for \$5. Each bag can be designed with a name in memory, in honor of or to support a loved one. The bag is then lit next to the track the evening of the event. We are trying to get some bags here, so you can decorate in advance. If interested in purchasing a bag, bring \$5 to Chuck or Tricia. All money raised through Luminaria sales will go to the American Cancer Society from the Sea Ray Team.

We could use all the help we can get. Even if the weekend of the event, your kids can't sleep, bring them out and walk the track.

GREEN TEAM NEWS

By Destini Wilson

As promised: here are some Tips to Go Green at Home:

- In the office and at home, regularly maintain HVAC systems.
- Replace at least 5 of your most-used bulbs with compact florescent.
- Shut all lights when leaving a room, saving about 5% on energy bills annually.
- Shut down your computers and monitors every night.
- Reduce overhead lighting by removing overhead bulbs. Replace with task lighting.
- Check with your local electric utility about purchasing green power. Many consumers have this option now.
- If green power is not available in your area, purchase [green tags or RECs](#) to offset.
- Get an energy audit for your home - Check with your utility about any energy saving incentives it may offer.
- Use an environmentally responsible bank. Many banks are working to address global warming.
- Invest in green. There are many

good mutual funds and stocks available.

- Don't choose between paper and plastic — shop with reusable bags.
- Recycle your electronics and computer equipment.
- Safely dispose of hazardous materials, like batteries, CFLs, and chemicals. Check locally or online for resources.
- Opt-out of [junk mail](#).
- Pick a green dry cleaner that doesn't use perchloroethylene, a known carcinogen. Or better yet,

don't buy clothes that need to be dry cleaned.

- Recycle everything possible. Glass, metal, plastic, paper, cardboard (don't forget junk mail!) and more - and participate in special item recycling days, such as for paints or electronics. Donate used items rather than trashing them. Some places will even take worn / stained clothes for rags.

Most of these tips were contributed by Elizabeth Striano Consultant and writer on sustainability and the environment. For more green tips visit www.agreenfootprint.com.

Skilled Games By Tom Plock

Skills, reasoning, luck? Whatever take you had on the counting games one thing is for sure, it was fun! One guess for a chance to get a great gift basket for your Valentine. Here are the winners who had luck (I mean Skills) on their side. Terry Kunsman (Lamo), Robert Polenz (Warehouse), Billy Dressel (Process Engineer) & Michael Robinson (Night Fabrication)
